```
Subscribing/Unsubscribing Hints:

  1. Press CAPITAL 'L' and enter the name of the groups to display, e.g.,
      *.music.*  to see all 'music' groups.
  2. Move to the group you want to subscribe to and then press 's'.
      Repeat this step for each group.
  3. Press the Capital-L key again to display only subscribed groups.

Commands that affect the current group:

  P                     Post an article to the current newsgroup
  ESC P                 Post a or edit postponed article
  SPACE, RETURN         Select the current newsgroup.
   The following three variations permit viewing previously read articles:
  ESC 1 SPACE           Select group with article number query.
  ESC 2 SPACE           Select group but do not apply score.
  ESC 3 SPACE           Select group with query but do not apply score.
  s                     Subscribe to the current newsgroup
  ESC 1 s               Subscribe to pattern
  u                     Un-subscribe from the current newsgroup
  ESC 1 u               Un-subscribe to pattern
  c                     Catchup-- mark all articles as read
  ESC u                 Un-Catchup-- mark all articles as un-read

Movement Commands:

  ESC <                 Move to top of the list
  ESC >                 Move to bottom of the list
